

CORE SPECIALIZATION & PHILOSOPHY

Builds autonomous agentic AI architectures, grounded RAG pipelines, and high-performance ML backends. Engineers deterministic safeguards, role-based controls, and vector reasoning engines to deliver production AI systems that decide and act reliably.

WORK EXPERIENCE

Syncs Group — AI/ML Intern2026

- Architected scalable machine learning microservices and high-throughput data extraction engines.
- Optimized multimodal and agentic pipelines for low-latency operational intelligence and structured outputs.

TeckyBot — AI InternJan 2025 – Mar 2025

- Developed tabular predictive models and classification engines using scikit-learn with rigorous feature engineering.
- Implemented GenAI conversational workflows, prompt routing logic, and automated evaluation frameworks.

FEATURED SYSTEMS ARCHITECTURE

Dynamic Pricing Intelligence Platform [Autonomous Microservices]GitHub

- Stack: FastAPI, React Vite, Playwright Stealth, Scikit-learn (DBSCAN), OpenRouter Vision/LLM, PostgreSQL, Docker
- Built distributed scraping engine evading bot-detection across major e-commerce platforms.
- Clustered price points via DBSCAN to map competitive whitespace and synthesized executive reports with multimodal LLMs.

AI Clinical Trial Contradiction Engine [Healthcare NLP / RAG]GitHub

- Stack: Clinical BERT, MPNet, FAISS, Mem0 Memory Layer, FastAPI, React, PostgreSQL
- Automated parsing of dense clinical trial protocols (PDFs) to match patient cohorts against inclusion/exclusion criteria.
- Engineered contradiction detector surfacing silent medical conflicts across longitudinal patient records.

Enterprise SOP & Policy Knowledge Assistant [Production RAG]GitHub

- Stack: Python, FastAPI, Streamlit, FAISS Vector Index, OpenAI GPT-3.5 Turbo, RBAC, CSV Logging
- Built decoupled enterprise assistant with strict role-based document partitioning and chunk-level similarity search.
- Implemented hallucination-proof strict context grounding with full audit logging for compliance.

EDUCATION

B.Tech: Computer Science & Engineering (AI & Data Science) — Audisankara Inst. of Tech.2021 – 2025 | CGPA: 8.4

Higher Secondary (Class XII, MPC) — B S R Junior College2019 – 2021

Secondary School Certificate (Class X) — Zilla Parishad High SchoolPassed 2019

TECHNICAL PROFICIENCY MATRIX

GenAI & LLMs:

LangChain, LangGraph, RAG, Prompt Engineering, OpenAI, Azure OpenAI, Gemini

ML & NLP:

PyTorch, TensorFlow, Keras, Hugging Face, BERT, Scikit-Learn, OpenCV

Backend & Data:

Python, FastAPI, Django, FAISS, ChromaDB, PostgreSQL, Redis, Docker, REST APIs

Frontend & DevOps:

React, Next.js, TypeScript, Streamlit, Git, Linux, Vercel, Render

Upskilling:

Multi-Agent Swarm Frameworks, Quantization, Low-Latency LLM Inference
